FORM 610 USE PREVIOUS EDITIONS

せ U.S. Government Printing Office: 1985-494-834/4915

5 October 1987

	MEMORANDUM FOR:	Chief, Information Management Support Staff, OL
STAT	FROM:	Chief, New Building Project Office, OL
	SUBJECT:	Planning Requirements
	REFERENCE:	Mtpl Adse Memo fm C/IMSS, dtd 25 Sep 87
	In response	to the reference, attached are NBPO's FY 87 Significant
	Accomplishments.	•
STAT		
	Attachment	

OL/NBPO FY 87 Significant Accomplishments as of 30 September 1987

Continued construction of the New Headquarters Building (NHB). The great majority of walls are now in place, corridors and rooms are well defined, raised flooring is in place, landscaping is under way, wiring for telephones/ADP equipment/telecommunications is under way, and the entire glass curtain wall was installed. The computer centers on the first, second, and third floors, the UPS area, the North Tower telephone closets, and the ground floor OTS laboratory space in the North Tower were turned over to the Agency for beneficial occupancy. Approximately 25% of the total NHB space has now been turned over to the Agency for beneficial occupancy. The Cray supercomputer was delivered on 28 September, and installation started immediately in the first floor computer area. The Visitor Control Centers at Gates 1 and 3 were also completed, as was the repaving of the Headquarters compound, representing the largest Small Business Administration contract ever processed (\$5.8M). The Rt. 123/193 Roadway Improvements Project is approximately 70% complete, and is scheduled to be completed by the end of CY-1987. All major items of work associated with the upgrade of the Central Plant are complete except for repairs to one of the emergency generators and retrofitting of the boilers.
